## VARIOUS MATTERS.

An occasional green straw hat is seen.

Delicious creamed chicken tonight at Food Fair.—adv.

There is a demand for veranda furnishings.

Seeds are rotting in the ground for want of warm sun, the farmers claim.

Home-made cake and candy at Food Fair tonight.—adv.

British clubs in various places will celebrate Empire day on Monday next, May 24.

Of local interest is the announcement that Mrs. George Tyler of Baltimore has arrived at her cottage at Eastern Point for the season.

Hot waffles and maple syrup at Food Fair tonight.—adv.

Recent rains have helped the turf on the terrace of the Halls club grounds, and the handsome beds of pansies, shrubs and vines are flourishing.

The auxiliary catboat, Alma L., Captain Hayes of Block Island, conveyed the first consignment of lobsters of the year from the island to the mainland on Wednesday.

Vineyard Workers' food fair tonight, Central Baptist church.—adv.

Rev. G. C. Chappell of Warrenville, who has accepted a call to the pastorate of Union Baptist church in Palmerton, will begin his ministerial duties next Sunday, May 23.

At her home, 54 Cleveland street, Orange, N. J., Elizabeth M., wife of Theodore D. Warren, died on Wednesday. She was the daughter of Benjamin and James Clark Otis of Colchester, Conn.

Ice cream, maple mousse, lemon sherbet at Food Fair tonight.—adv.

The annual Episcopal conference is to be held this summer at the Episcopal Theological school at Cambridge, Mass. A permanent place for the conference is to be purchased soon in the Litchfield hills.

Get the Freddie Walsh-Jack Goodman fight on the Del-Hoff ticker tonight.—adv.

The Connecticut Historical society is to hold its annual meeting at Hartford next Tuesday. The nominating committee has named officers among the vice presidents, Jonathan Trumbull, Norwich; Miss Ellen D. Larned, Thompson; and E. Stevens Henry, of Rockville.

Special sheet music sale today and tomorrow, 15c per copy, at The Plant-Cadden Co.—adv.

A state document worthy of careful consideration is the third biennial report of the commissions of the state geological and natural history survey for 1907-1908, as contained in Bulletin No. 12. It shows comprehensively what has been done and what is still in progress in this line, under civic authority.

Gov. Frank B. Weeks has approved the requisition of the adjutant general and acting commissary general on the comptroller for \$1,500 for subsistence at May parades, 1909, and of the adjutant general and the acting paymaster general on the comptroller for \$1,000 for expenses of military enrollment and military officers.

Mrs. May S. Pepper-Vanderbilt, the famous Brooklyn medium, at Spiritual academy Sunday, 25 cents.—adv.

The will of the Rev. Bailey S. Morse of Grafton, Mass., formerly pastor in Lebanon and Colchester, who died May 10, filed for probate Wednesday, leaves his entire estate to his two sons, Frank L. of Chicago and Edward B. of New York, and his two daughters, Carrie L. Bailey of Grafton and Mary L. Woodbury of Chicago.

Wordell's Ocean Beach Casino opens for the season on Sunday, May 23d. A shore dinner will be served.—adv.

A story was circulated about the state Wednesday that a large taxicab company in New York city had recently been awarded the contract for the transporting of passengers from all railroad stations along the New Haven road's system, or, in other words, for the hack service around the railroad stations, approaches to which are controlled by the railroad company. It was denied by President Melien.

Social by Goodwin's Union orchestra in T. A. B. hall Saturday night at 8.30.—adv.

The executive board of the New London County Agricultural society met Thursday at the office of the treasurer, C. W. Hill, to take action on an invitation from the committee of the town's 250th anniversary to participate in the celebration. The board considered that the time would be the busiest season for the farmers; but to manifest its interest voted a check for \$20 towards the celebration subscription fund. The matter was left with the secretary, Theodore W. Yerrington.

## DOG WARDEN STANTON

Will Ask to Have Place Provided for Pound.

George H. Stanton, who is now dog warden for both the town and city, having been appointed to the city berth by Chief Murphy to fill out the unexpired term of Patrick T. Murphy, who has resigned, started in earnest on Thursday to get after the unlicensed dogs and two were put out of the way.

At present Mr. Stanton is using his own wood shed for a dog pound where the animals can be kept for a while after they have been caught, but the howling of the captives is very annoying to his own family and to the neighbors, so that he stated Thursday he would call upon the selectmen to provide a proper place, which it was their part to do according to law.

Dog Warden Stanton has already killed 25 dogs in the town.

G. B. Dolbeare on Southern Trip. Guy B. Dolbeare, sister of the Norwich Savings society, sailed last Saturday from New York for Galveston, Texas. He will return via New Orleans and the Southern Pacific Steamship line, reaching home the first of June.

## ACCIDENT ON THE FERRY AT NEW LONDON.

As the Result Sift for \$5,000 Is Brought by Mrs. Sarah A. Cook — Evidence Heard.

This civil superior court, with Judge W. S. Case and a jury, was in session here Thursday for the trial of the case of Mrs. Sarah A. Cook vs. the Thames Ferry company of New London. This is a suit for \$5,000 for injuries received by Mrs. Cook, who was a passenger on the ferry from New London to Groton, and who on leaving at Groton caught her foot and injured her leg badly, two years ago, and has not fully recovered. Her husband also has a suit against the company.

The accident occurred on the night of Feb. 14, 1907. Mrs. Cook claims that in leaving the ferryboat her foot became caught between the boat and the float, her ankle and knee being severely sprained. The services of a doctor were required and Mrs. Cook said that she is still unable to walk. Mrs. Cook claims that the company was negligent in failing to have a light at the slip. Among the witnesses who testified yesterday were Mrs. Cook, her husband, Lester O. Cook, who is an engineer on the New Haven road; Ernest W. Wadham, a conductor on the New Haven road, who assisted Mrs. Cook after the accident; and Frank W. Chappell, secretary of the Thames Ferry company, who explained the position of the float and the way the boat makes its landing and other details bearing on the case.

Attorney Charles F. Thayer, counsel for the defendant company, moved nonsuit, claiming that the plaintiff's testimony had not established cause for a suit, but Judge Case denied the motion and the trial proceeded. The plaintiff rested and the defense began its case. Among the important witnesses for the company was Patrick Cahill, janitor of the ferryhouse, who testified that the lamps were lighted on the night in question, refuting Mrs. Cook's statement that they were not.

A. J. Gilmore also testified that the lights were lighted on the night in question, and M. D. Holloway told of the plan of lighting the place, and that they were in position the night of the accident. The evidence was completed during the afternoon.

This morning there will be a short calendar session, with assignment of cases and bar meeting.

## CENTRAL ATHLETIC CLUB.

Proceeds from Annual Ball Amount to \$173—Captain Sullivan Made Manager.

The regular business meeting of the Central Athletic club was held Thursday evening in their rooms in the Stead building. Vice President Patrick Sullivan called the meeting to order. As Manager, John Sullivan, of the baseball team, was being compelled to resign because of his work conflicting with looking after the team, Capt. Tim Sullivan was made both manager and captain.

Further reports received from the annual ball made the net proceeds amount to \$173, and the committee was given a vote of thanks for their work. Jeremiah A. Desmond was made chairman of the ways and means committee. It was voted to light the gymnasium with electric lights, which will be put in without delay.

During the evening the club had the honor of a call from Jimmy Clabby, the welterweight champion of the west, who is visiting relatives here. Clabby made a hit with the club members, who wish him to live. A number of boys were chasing it to see if they could jump the walls, so gracefully and easily did it hurdle.

## OBITUARY.

### Mrs. Milon Loveland.

The death of Mrs. Henrietta Oliver Loveland, wife of Dr. Milon Loveland, occurred at her home in Keene, N. H., on Wednesday morning. She had been in poor health for the past six weeks and was seriously ill but a few days.

Mrs. Loveland was born in New York, but resided here a number of years, being a niece of the late Caleb B. Rogers, with whom she lived. About forty years ago she married Dr. Loveland, and they went to Keene, N. H., to reside, where he is one of the prominent dentists. He is a brother of Mrs. George Gould of the city. Their quarrel had many friends in this city and other relatives. She was a member of Broadway Congregational church. The remains are to be brought here for burial at Yankee cemetery. Dr. Loveland survives her.

### Many Deer Hereabouts.

Thursday morning about 6.45 o'clock a young dog was seen near the home of H. F. Ulmer in Maple Grove avenue. It went north through the Falls and soon after seven o'clock was seen near Coit street on the West Side. A number of boys were chasing it to see if they could jump the walls, so gracefully and easily did it hurdle.

Passengers on the first car from Norwich on Wednesday morning were treated to a sight of a deer on the tracks near Mohegan gate. This is the first that has been seen thereabouts this year, although several have been seen by anglers and others who have been in the woods. The animal was quite large and was in plain sight for several minutes, keeping to the highway ahead of the car for a few hundred yards.

Lord Wolsey, who used to be known in England as your greatest general, is in straitened circumstances and has given up his residence, the Farmhouse, Glynde, Sussex, owing to the expiration of his lease, and the furniture and contents of the modest little mansion have been disposed of by auction.

## This Tonic Will Do You Lots of Good

The end of May usually sees the opening of the Malaria Season. The best possible insurance against malaria and other Summer diseases is to have your system in good condition at the very beginning of hot weather.

### SMITH'S HYPOPHOSPHITES

will do you lots and lots of good if you are not feeling as well as you ought to feel.

It improves the appetite, helps digestion, enriches the blood, and through the blood nourishes and builds up all parts of the body.

A Perfect Tonic, equally good for the little or big, the young or old.

PRICE 90 CENTS.

## SMITH The Drug Man.

Franklin Square, Norwich, Ct. may21d

# SCHOOLS WILL HAVE FLOATS

Decided by Committee as Method of Participating in the Parade—Official Dinner will be at Wauregan House—Talk of a Circus.

There was a meeting of the committee on schools Thursday afternoon at the Arcanum club, at which it was decided after some discussion to confine the participation of the schools to floats and each school will therefore have a float in the parade. There was discussion on what subjects would be taken up in the arranging of the floats and many suggestions were made, but the probabilities are that all will represent some historical events, and tentative plans to this end were talked over, but no final decision was made, as there will probably be many changes.

### Dinner for About 200.

On Thursday afternoon there was a meeting at the Central fire station of the reception and entertainment committee, at which the principal business was the arrangement of places for the guests during the stay in town. This is about completed. It was also learned that the Wauregan house can serve the official dinner to President Taft and the distinguished guests and it will be held there. It is believed there will be about 200 at the dinner.

### Hospitality Committee.

The hospitality committee has a big job on their hands and is getting to work with a will. R. S. Bartlett is preparing a list of places where rooms can be had during the celebration and the committee is getting to work on the list. It is understood that he will keep a list of the places by a card system in duplicate, giving one of the cards to the applicant and retaining one at his headquarters for reference. E. L. Burnap has been made a member of the committee. The committee is also likely to recommend that many of the stores carry temporary lunch counters to care for the wants of the inner man during the two days, as it is realized that restaurant quarters will be taxed to the limit at that time.

### No Executive Committee Meeting.

There was no executive committee meeting on Thursday and probably will not be for a number of days, states Chairman Tracy of the executive committee. He stated that a letter had been received from W. C. Thompson of the 101 Ranch Wild West Show, stating that it was the intention of the show to exhibit here on July 1st, but he would like to change the date so as to play here July 5. Mr. Tracy did not consider that date favorable, but thought there might not be any objection to the circus being here on July 6, the second day. Monday is well filled with attractions, but he thought there would be opportunity.

## 250th ANNIVERSARY CELEBRATION

of the

Founding of Norwich, July 5th and 6th

## LOCAL COMPANIES WILL ENTERTAIN VISITORS.

Coast Artillerymen at Celebration from Out of Town Will Have Headquarters and Lunch at Armory.

Captains Hagberg and Tarbox of the local coast artillery companies have been asked by Chairman Tracy of the executive committee if they will entertain the four or five companies of coast artillerymen who come from out of town for the celebration. The idea is to entertain them at the armory, where they will be given rations, to be furnished by the company which they are visiting. This has been agreed to by the captains and the visitors are therefore sure to be well taken care of.

On Thursday evening the Third company, C. A. C., had guard duty and drill at the armory, after which there was a meeting of the company and much business disposed of. It was voted to accept the invitation of Sedgewick post, No. 1, G. A. R., to parade on Memorial day, and also the invitation of the Fifth company to attend the memorial service next Tuesday evening at the armory. The company voted to decorate the grave of Private Coburn, the only member of the company who has died.

Pictures were taken on the field day of the company at the range and they were delivered to the members at the armory Thursday evening. It was voted by the company to purchase some for the decoration of the company walls and it was also voted to purchase a frame for the pictures of the commissioned and non-commissioned members of the company which will be hung in the armory.

Although the time has been announced in orders from the adjutant general's office for the First and Second regiments of infantry, the First Separate company, Troop A of New Haven, First company, Signal corps, and Battery A (F. A.), to go into camp as from Aug. 16 to 21, inclusive, the place of camp has not been definitely fixed. It seems likely that these commands will join the forces which are to be used during that time in grand manoeuvres in and around Boston. The war game will employ these commands from Connecticut, two regiments of infantry from the District of Columbia, five batteries of field artillery from New York and one from the District of Columbia, in addition to the two brigades (6,500 men) of the Massachusetts forces. Most of the regulars in New England will be used as well and the cavalry from Fort Ethan Allen and from other posts in New York state will be added to the defending forces. The District of Columbia commands will be brought from Newport News by the transport service.

The problem of attack and defense will be under the eye of Maj. Gen. Leonard Wood, commanding the department of the east. The senior general will be Brigadier General Harries of Washington, Brigadier General Rowe of New York and Brigadier General Clark of Massachusetts, while the actual command of the defense will be with Brigadier General Pew of Gloucester, commanding the Second brigade, M. V. M.

### Too Busy.

"What we want," said the reformer, "is a leader who is wholly unselfish; a man absolutely above all mercenary considerations."

"Yes," answered the man with chilly eyes; "and when you find that kind of a man, he's generally broke and compelled to work hard for a living instead of studying economic theories."

If Mrs. Hester Cordroy of Delmar, Del., is as old as a despatch to the New York Tribune says she is, she may not unreasonably claim to be the oldest active worker in the country. Cordroy is said to have been born February 12, 1797, and if she was she is well started in her 112th year. She is a most industrious woman, cultivating with her own hands two large gardens and selling the products.

for the show on Tuesday. No action has been taken on it.

### Boat Club Committee.

For the water carnival Commodore H. B. Cary of the Chelsea Boat club has appointed the following sub-committees from the general committee: Decorations, launches owned by the club, George Richmond, chairman, F. H. Lester, Nathan A. Gibbs and Lewis Young; launches owned by others, Maj. William A. Wells, chairman, C. H. Caldwell, Nathan A. Gibbs and John Vergason; canoes owned by club members, Allyn Brown, Daniel Haywood and John P. Huntington; pleasure boats owned by club members, Charles B. Foster, chairman, Charles Parsons and Noah Lucas; decoration of club house, Henry T. Nelson; float in procession, Charles H. Haskell, chairman, Walter M. Buckingham and Tyler Olcott; refreshment committee, Arthur Peale, chairman, Lewis Young and Ralph Howe; prizes, Commodore H. B. Cary.

## FORESTERS NAME COMMITTEE

Court Sachem Members to Confer with Those from Other Courts on Anniversary.

Court Sachem, No. 54, Foresters of America, held a well attended and interesting meeting Thursday evening in Foresters' hall with sub-Chief Ranger Irving Forbes presiding in the absence of Chief Ranger A. G. Crowell. The initiation of three candidates by the uniformed degree team was the feature of the evening, a most entertaining evening resulting, as the goat proved well fed and active and the three were duly impressed with the mysteries of the order. There are three more to come next time, so that the initiating team will be kept in training.

Action on the invitation to participate in the coming 250th anniversary celebration was taken by appointing a committee of five, which is expected to confer with similar committees to be appointed by Court City of Norwich and Court Quinebaug. The committee comprises Robert McBride, Joseph R. Portelance, Henry Tyler, Frank Sylvia and Cornelius Kennedy.

As the memorial day of the order comes on the second Sunday in June, a committee of five was named to make the necessary arrangements, consisting of William Shea, Cornelius Kennedy, F. Carter, D. Simoneau and John Callahan.

Financial Secretary Joseph R. Portelance read a lengthy report of the recent meeting of the grand court in Danbury for which he received the thanks of the court.

## STEADY PROGRESS ON THE NEW BUILDINGS.

Contractors Building Foundation for Academy Building—Much Doing at the Other Points About the City.

Progress that shows every day is being made with the addition to the Academy building, as the contractor has a large force of men at work on the foundations, and a derrick and steam engine have been set up on the Perkins road side, where a corner of the foundation wall has been laid. All the excavation has been done, so that the road is clear to go right ahead on the foundation stone work.

This week the memorial tablets in the lower front hall have been taken down and stored in the basement of the Slater Memorial hall till there is a place to put them up again. On the other buildings about the city the contractors are making a big showing. Big crowds watch the steady rise of the new Shannon building. The masons are now building the brick piers on the front of the building, but brick being used in the facing with rounded corners. This work has been under way for about a week and the brickwork can be seen above the fence. The reinforced concrete employees are getting their wooden forms built and ready for work as soon as the work is advanced far enough for them to begin. At the rear the brick work is up for the basement walls, the bottom row of windows being in. The concrete casings with steel rods for protection in the basement.

On the Plant-Cadden building the third story has been completed and work on the fourth floor will now proceed. An engine is being used here to hoist the material and it proves a quick and handy method of doing it. At the McCrum-Howell Co. plant the work is progressing on the addition to the south of the plant. The excavating has been about completed and the floor timbers are being laid.

At the new industrial building the work is advancing, the walls for the second floor being completed, while at the Bacon Arms building new construction is under way for the improvement of that property and at the Hopkins & Allen plant the addition to the Franklin street wing is going up fast, being above the third story from the yard.

### The Foot and Mouth Epidemic.

The discovery that the epidemic of the foot and mouth disease of last fall and winter was caused by germs in imported swine, was a relief to the farmers, who had been alarmed by the fact that the experience was worth the price. Certain valuable, if severe, lessons were learned. One of these is that it is safer for the United States to encourage the manufacture of virus and serum products within our own borders in order that perfect supervision may be had and inspection rules be rigidly enforced. The market can be careless with articles he sends abroad and in many instances government regulation is suspended as involving sales to foreign purchasers. It is just possible that the manufacturer of the original virus was not aware of the contagion.

The loss suffered by the farmers, dealers and the government on account of the recent epidemic will total \$600,000, it is estimated. Yet in the long run, all the interests may conclude that the experience was worth the price. Certain valuable, if severe, lessons were learned. One of these is that it is safer for the United States to encourage the manufacture of virus and serum products within our own borders in order that perfect supervision may be had and inspection rules be rigidly enforced.
